Pave the Way for Gerstell Academy

With the Purchase of a Personalized Brick

The Carolyn B. Smith Hall is the newest building on the Gerstell Academy campus. The first floor houses the Wilson Dining facility while the second floor houses several science labs, classrooms and administrative offices. Directly in front of the structure's first floor entrance is a brick walk way, the Leadership Path, that displays a number of personalized bricks.

These bricks have been donated by parents, faculty, grandparents, Gerstell Academy staff and friends of the school as a lasting tribute to someone special. Here is an opportunity for you to honor someone special in your life. If you would like to purchase a brick with your own personalized message on it, simply complete the form below, print your message in the boxed section, and return the form to Mrs. Anne Nelson, Director of Development, 2500 Old Westminster Pike, Finksburg, MD 21048. Bricks can be purchased at a cost of $160 each with payment by check or credit card via our online payment method. You will receive a confirmation with an approximate date for the brick installment.
